To: punggol_ps@moe.edu.sg

Dear Principle,

I am Heng Wan Ning from P6-5 which is graduating this year. I am typing this email to show my gratitude to my teacher which had guide me all along to P6.

Firstly, I would like to thank my P1 and P2 teachers which had taught me the basics of my subjects. Without them, I may be still struggling to catch up with my classmates. Secondly, I would like to thank my P3 and P4 teachers which selflessly taught me what they know. Thirdly, I what to thank Ms Priya, my form teacher for helping me in my English. Without her, I may fail my english as it was my weakest subject. I would like to thank Mr Khamil and Mrs Lim. Mr Khamil for being a funny teacher which doesn't make the lesson boring. Also, with his detailed explanation, I could improve my math by a huge jump. Mrs Lim, who never stop giving us the encouragement, taught us science in a fun way which everyone would learn the concepts and have fun. Lastly, without Punggol Primary, I may not be the way I am now. So I would like to thank all the teachers for that.

Thank you for taking your time to read my email.

Yours Sincerely,
Heng Wan Ning
